

## Round & Oval Slipcovers

## Worksheet

These zippered covers are made to order. Made to fit any Round or Oval shaped cushions. Perfect for any cushions with loft or with out loft. Ideal for beanbags, furniture cushions, papasan, mamasan, floor cushions, pet beds, patio cushions, etc. Canceled zippered construction allows for easy fit and removal. Please note: these covers are not made with piping or trimmings.

**Lead Time:** All custom box corner covers are shipped within one week.

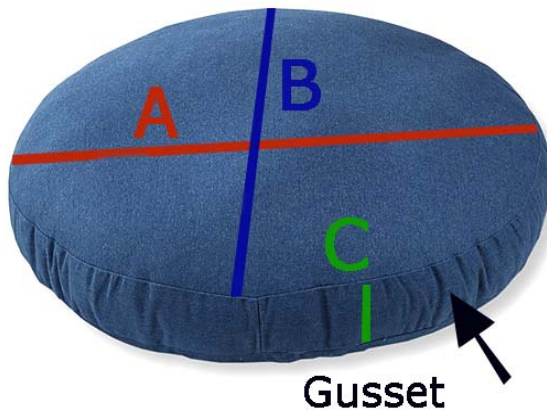

**Price includes:** Our fabric and labor.

### **General Measuring Tips:**

Always measure seam to seam. For perfect result use soft tailors measuring tape to accommodate for puffiness.

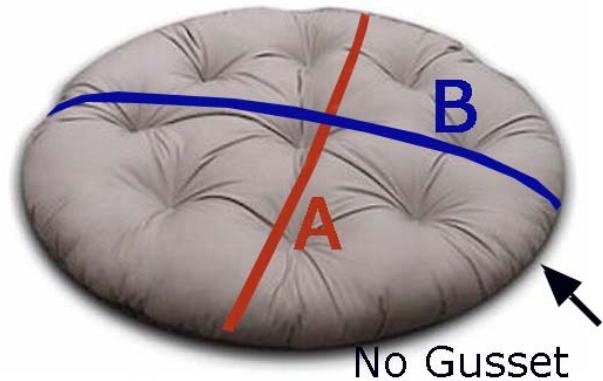

Measuring with yard stick, metal tape: remove stuffing, place cover on flat surface, measure seam to seam.

### **Measuring - Papasans, Mattress, Pet beds:**

#### Cushions with gussets (side panel):

Enter dimensions "A", "B", & "C" as show above.

#### Cushions with out gussets:

If your cushion does NOT have a gusset, enter dimensions "A" & "B" by measuring cushion, seam to seam. Enter 1" for Dim. "C"

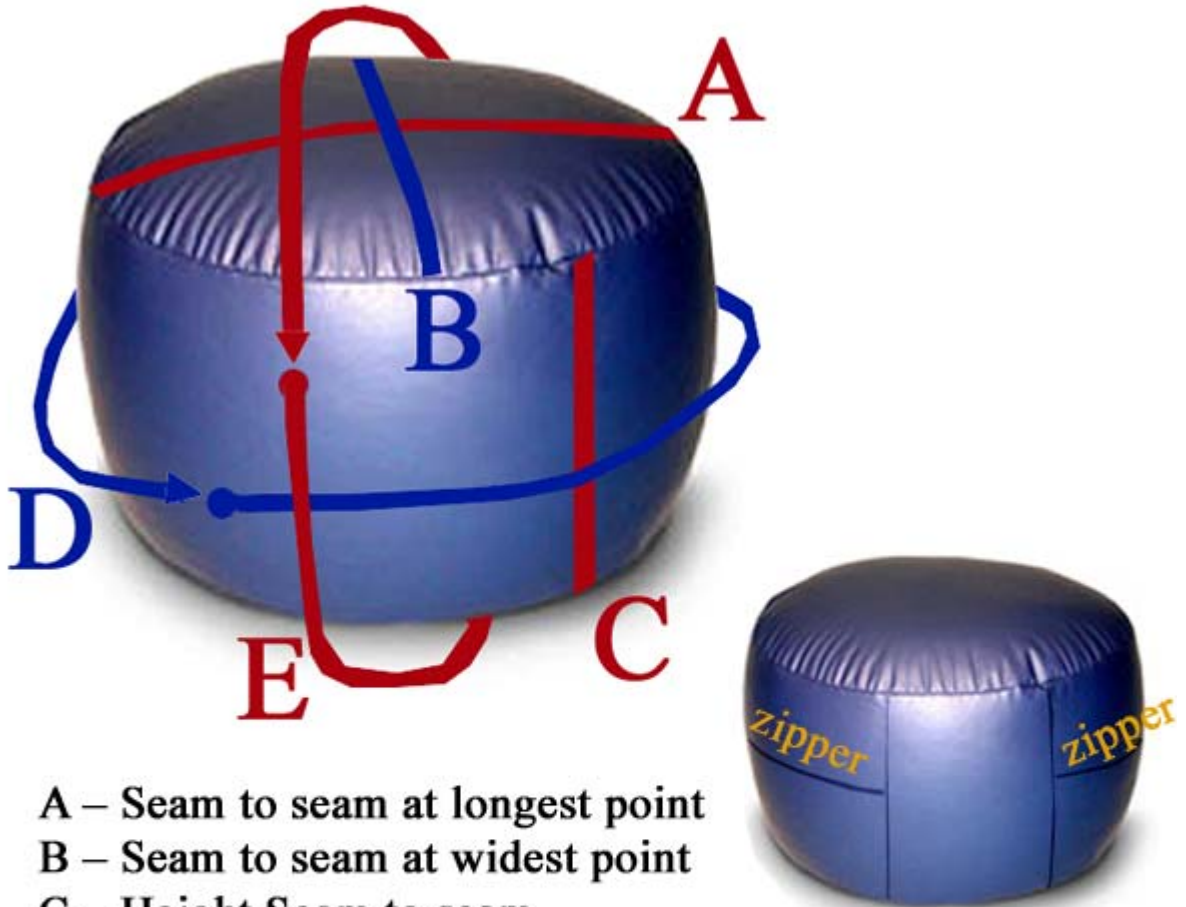

**FAQ.** - How do I know if my cushion has gusset? What about zipper?

**Answer:** If your cushion cover consists of top and bottom sheets only - you have No gusset.

If your cushion cover consists of top sheet, bottom sheet and side panel that connects them - you have gusset.

Zipper opening is half of circumference.

## Measuring - Beanbags:

- A – Seam to seam at longest point
  - B – Seam to seam at widest point
  - C – Height Seam to seam
  - D – All around circumference
  - E – All around circumference along Dim.B
- Concealed zipper installed along Dim.D and covers 75% of its circumference.
