

# Custom Slipcover Fitting Instructions

If you have purchased slipcover with separate seat cushion covers - remove seat cushions, otherwise keep your seat cushions on furniture.

Locate the "Center Back" and "Center Front" labels. Drape slipcover pulling it down over the furniture, starting from the top and working your way around the sides. Once it's draped over furniture, make sure slipcover touches the floor evenly on all four sides.

Tuck and smooth excess fabric, on both sides of furniture by shifting excess fabric towards back where arms and back meet.

Locate attached Clip-On locks that are attached at back of the slipcover. Fold excess fabric in to a pleats in the back of furniture at both ends. Tighten to create tension between front of the arm and back of furniture. Do Not over tighten slipcover.

If you have purchased slipcover with optional separate seat cushion covers, simply cover them and place them on furniture base.

Complete finishing touches - All Done!.

## Helpful Tips

Removing wrinkles: Simply place your slipcover in the dryer with a damp hand towel on a low heat setting. Be sure to remove the slipcover from dryer after several minutes and immediately place it on furniture for smooth look.

Washing your slipcover: For best results professional dry cleaning is recommended

## Frequently asked question:

Q. I have purchased slipcover without separate seat covers. Can I order cushion covers now? What will happen with extra fabric at the seat?

A. Yes you can purchase separate cushion covers. Simply fold excess fabric under the seat.
